## Reference

- A reference is a just another name for the same the variable

### Example :

```
int main()
{
    int a = 10;
    int &r = a; - syntax of reference
    Count << a;
    r++;
    Cout<< r;
    Cout << a;
}
```

- This is use for parameter passing
- For writing small functions we use reference
